

Close Reading: A Key to Teaching Constructed Response

Bonnie Goonen & Susan Pittman – May 26, 2015

Introductions

Welcome!

2 GEDtesting.com • GED.com

Session Objectives

In this session, we will:

-  Strategies to enhance students' close reading skills
-  Discuss the importance of close reading in teaching constructed response
-  Share resources and ideas

3 GEDtesting.com • GED.com

Similar Skills – Different Content

4 GEDtesting.com • GED.com

What do students need to know and be able to do across content areas?

- Read closely and extract information from complex text
- Analyze what they have read
- Make logical inferences or valid claims
- Evaluate evidence gleaned from text
- Express information or findings in words (extended response or short answer)

5 GEDtesting.com • GED.com

Student Challenges

- Understand specific details and main ideas in a written source
- Determine which details support main idea

6 GEDtesting.com • GED.com

Student Challenges

- Identify theme or element that supports a theme

7 GEDtesting.com • GED.com

Student Challenges

- Analyze relationships within written sources
- Examine form, content, and organization
- Examine the author's purpose and perspective
- Identify the author's claim and the reasons
- Determine if evidence is sufficient and accurate
- Determine logical fallacies (errors in reasoning)

8 GEDtesting.com • GED.com

What Is Close Reading?

Methodical investigation of a complex text through . . .

- Answering text-dependent questions
- Unpacking the text's meaning
- Directing students to:
 - examine and analyze text at a deep level of critical thinking
 - focus on word/sentence meaning
 - focus on development of events and ideas
 - extract evidence from the text
 - make inferences based on what they have read

GEDtesting.com • GED.com

Why Depth of Close Reading Matters

Close reading instruction:

- Requires careful attention to how the text unfolds through asking text-dependent questions.
- Focuses on building knowledge through the strategic use of text-dependent questions.
- Prepares students for the kinds of reading tasks they will encounter after graduation.

"If you don't have the time to read, you don't have the time or the tools to write. Simple as that!"

Stephen King

Despite its name, close reading has a lot more to do with writing than reading!
(Fisher)

GEDtesting.com • GED.com

Patterns of Organization for Non-fiction Text

-  • Description
-  • Sequence and Order
-  • Compare and Contrast
-  • Cause and Effect
-  • Problem and Solution

13 GEDtesting.com • GED.com 

Effective readers use text structure to . . .

- Predict what is to be read
- Comprehend/understand text
- Observe the way the author has organized the text
- Look for key words and concepts
- Note the different headings and subheadings
- Notice and interpret graphics

14 GEDtesting.com • GED.com 

Effective Readers Analyze and Evaluate Text

<h4>Analyze</h4> <ul style="list-style-type: none"> • Examine form, content, and organization • Examine the author's purpose and perspective • Identify the author's claim and the reasons • Determine if evidence is sufficient and accurate • Determine logical fallacies (errors in reasoning) 	<h4>Evaluate</h4> <ul style="list-style-type: none"> • Evaluate the purpose of the passage • Recognize the main claim and evaluate how it is expressed • Understand and evaluate the structure of the text • Evaluate the reliability of evidence included • Understand and evaluate reasoning about the evidence
--	--

“A careful and purposeful rereading of a text.”

— Dr. Douglas Fisher
San Diego State University

16 GEDtesting.com • GED.com 

Steps to Take . . .

Step 1 – Find the Right Text

The text should be:

- Complex
- Content-rich nonfiction or informational
- Short passages
- Applicable for multiple purposes

Step 2 – Do Your Pre-Work

Identify the most important thing for students to learn, and then:

- Create a series of TDQs (text-dependent questions)
- Identify key words
- Determine the annotation symbols
- Chunk the text
- Develop a reflection activity

17 GEDtestingservice.com • GED.com

Finding the right text

- Examples of text and sample tasks can be found on pages 77 – 183 [starting at grades 6-8 and moving up to grade 12 and CCR] at http://www.corestandards.org/assets/Appendix_B.pdf

18 GEDtestingservice.com • GED.com

Finding the right text

- Qualitative Measures of Text Complexity
 - Language conventionality and clarity
 - Literal vs. figurative
 - Clear vs. ambiguous
 - Contemporary or familiar vs. archaic or unfamiliar
 - Conversational vs. academic
 - Knowledge demands
 - Simple theme vs. complex or sophisticated theme
 - Single theme vs. multiple themes
 - Everyday knowledge required vs. specialized knowledge
 - Few references to other texts vs. many external references

19 GEDtestingservice.com • GED.com

Finding the right text

- Quantitative Measures of Text Complexity
 - Use of “Lexiles”
 - Lexile Ranges:
 - Grades 6 – 8: 955 – 1155
 - Grades 9 – 10: 1080 – 1305
 - Grades 11 to CCR: 1215 – 1355
- Considerations based on readers and tasks: Remember that
 - Ability to read complex text does not develop in linear fashion
 - Students reading below level need additional support
 - Students will need scaffolding even as their skills improve
 - Instruction should move towards decreasing scaffolding and increasing independence

20 GEDtestingservice.com • GED.com

Rigorous Text-Dependent Questions should not be . . .

- Low-level, literal, or recall questions
- “Right there” questions
- Focused on comprehension strategies
- Just questions . . .

GEDtestingservice.com • GED.com

Text-Dependent Questions

- Do **NOT** rely on . . .
 - Personal opinion
 - Background information
 - Imaginative speculation

GEDtestingservice.com • GED.com

Text Dependent Questions

- Answered through close reading
- Evidence comes from text, not information from outside sources
- Understanding beyond basic facts
- Not recall

GEDtestingservice.com • GED.com

Text Dependent Questions

- Can be used to . . .
- Identify key ideas in complex text
- Should cause students to think at higher levels by . . .
- Making logical inferences
 - Drawing conclusions
 - Engaging in arguments based on what the text says

GEDtestingservice.com • GED.com

Steps to Take . . .

Step 3 – Teach Students to Read with a Pencil

- Number the paragraphs
- Underline major points
- Highlight or circle key words/terms
- Use the following symbols
 - ? – for something that is confusing or that they don't understand (explain why)
 - ! – something that is surprising (explain why)
 - E – example or evidence that supports major points (write a note)

Steps to Take . . .

Step 4 – Discuss Students' Responses to TDQs

- Use TDQs from your pre-work
- Have students:
 - Provide their answers
 - Indicate where they found the answer
 - Provide the evidence that supports their answers

Step 5 – Have Students Write About What They Read

- Provide students with a prompt
- Have students write about what they read, using evidence from the text

Putting the Process to Work

Step 1 – Find the Right Text

Step 2 – Do Your Pre-Work

Step 3 – Teach Students to Read with a Pencil

Step 4 – Discuss Students' Responses to TDQs

Step 5 – Have Students Write About What They Read

Use Close Reading with Pros/Cons of DST

Benefits of DST

Evidence supporting Pro side of argument

Many studies have investigated the benefits and costs of DST. *Research in the 1970s found that DST saved about 1% per day in energy costs.* On average, most electricity used is for lighting and appliances. It makes sense that *more sun at the end of the day meant less need for electricity.* This follows right along with Ben Franklin's argument over 200 years ago.

Supporters of DST also claim that more sunlight saves lives. *Studies have indicated that traveling home from work or school in daylight is safer. Nearly three decades of research shows an 8-11% reduction in crashes involving pedestrians and a 6-10% decrease in crashes for vehicle occupants after the spring shift to DST.*

Use Close Reading with Pros/Cons of DST

Arguments against DST

Opponents of DST cite other studies that disagree with these outcomes. A **2007 study in California indicated that DST had little or no effect on energy consumption that year. A three-year study of counties in Indiana showed that residents of that state spent \$8.6 million more each year for energy, and air pollution increased** after the state switched to DST. The **researchers theorized that the energy jump was caused in part by increased use of air conditioning as a result of maximizing daylight hours.**

Recent research has also brought into question the safety aspect of the yearly switch to and from DST. In **one study, pedestrian fatalities from cars increased immediately after clocks were set back in the fall. Another study showed 227 pedestrians were killed in the week following the end of DST, compared with 65 pedestrians killed the week before DST ended.**

Evidence supporting
Con side of argument

29 GEDtesting.service.com • GED.com

Use TDQs

- Why did Ben Franklin support the idea of DST back in 1784?
- Based on evidence from the article, when did Congress pass the Uniform Time Act of 1966?
- Based on the research, how much energy was saved in the 1970s?
- Based on the article, why do supporters of DST claim more sunlight saves lives?
- What were the results of the study conducted in Indiana?
- According to the article, why do those who oppose DST believe there is little or no benefits to safety?

30 GEDtesting.service.com • GED.com

Effective Readers Can . . .

- Locate key information
- Distinguish between main ideas and supporting details
- Modify reading based on difficulty of text
- Ask questions before, during, and after reading
- Monitor their comprehension
 - Evaluate new information
 - Connect new information with existing ideas
 - Organize information in ways that make sense

GEDtesting.service.com • GED.com

Effective Argumentative Writers Need to . . .

- Locate key information or evidence
- Distinguish between main ideas and supporting details
- Ask questions before, during, and after reading
- Monitor their comprehension
 - Evaluate new information
 - Connect new information with existing ideas
 - Organize information in ways that make sense

GEDtesting.service.com • GED.com

Putting the Two Together

Effective reading and writing skills enable students to:

- Read complex text
- Identify text structure
- Look for key words and phrases
- Unpack the prompt
- Develop a claim or argument
- Find the evidence that supports that claim or argument
- Analyze and evaluate the evidence
- Explain how the evidence is connected to the claim or argument
