I really want to know…

GED
TESTING SERVICE®

How Can GED Analytics Help You?

- On-demand access to GED testing data from 2014 on

- Allows you to instantly look at testing volume, pass rates, demographic information, and much, much more

- Filter GED test data by demographic information such as age, gender, whether they attended adult education, tested in a correctional facility and more

- Easily download reports as Excel files or graphics as image files

GED

Access to GED Analytics

- All GED Administrators have access

- GED Administrator approves access for others throughout the state that need access well.

There are 2 different roles.
- GED Analytics (aggregate date & student details)
- GED Analytics Lite (aggregate data <u>only</u> can be viewed)

Data integrity

- Nightly upload of data

- Every data element is defined (drop down arrows above each number provide definitions)

- Data source: MyGED™ portal database which gets appointment details, and exam results from Pearson VUE

- At initial log-in, you will electronically sign an End User Licensing agreement, agreeing to protect any confidential information

GED

Reminders and FAQs

- Data is updated in GED Analytics each day around 10:30 am EST

- Frequently Asked Questions and User Guide documents are available in the top left hand corner of each tab.

- If data looks odd double check to see if you have applied a filter

GED
TESTING SERVICE®

Enhancement Requests

- Jurisdictions questions
  - A dropdown of jurisdiction specific questions and the responses on the dashboard

- Test Center view
  - Test Center User should be able to view only students who tested at their site
